Efficient heat dissipation prolongs a great service life

An aluminum panel is used for fast conduction heat dissipation and a fin heat dissipation design increases the surface area for rapid convection heat dissipation.

Thin & light die casting panel, less installation space & easy maintenance

- Die casting panel, high splicing accuracy and good flatness.
- Thinner panel, wall mounted, save space.
- Front and rear maintenance, fast and convenient.

Suitable for right Angle stitching application, bring higher commercial value

It can be adjusted to a right angle splicing according to the building structure, bringing a stunning visual effect of 90° corner
